

NORCAL TRACON Tour

An upfront and personal view of how radar, ADB-S, and other tools that ATC uses to move aircraft through the nation's airspace system with safety as the number one priority. This tour should take the "mic fright" away from those who have a hard time with the PTT switch.

Directions: Directions will be provided only to registered participants.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
